3. Amend master glossary term Business to show the following pending content, with a link to transition paragraph 805-10-65-1.

Business

Additional guidance on what a business consists of is presented in paragraphs 805-10-55-4 through 55-9.

4. Amend paragraphs 810-10-30-6, 810-10-50-3, and 810-10-55-9 by changing the existing glossary links on the term “Business” from the term that appears in 805-10-20 to the term being amended in this Item of this ASUI.

5. Based on comments received, amend paragraph 970-323-25-8, with no link to transition paragraph as follows:

970-323-25-8 If the substance of the partnership arrangement is such that the general partners are not in control of the major operating and financial policies of the partnership, a limited partner may be in control. An example could be a limited partner holding over 50 percent of the total partnership interest. A controlling limited partner shall be guided in accounting for its investment by the principles for investments in subsidiaries. Noncontrolling limited partners shall account for their investments by the equity method and shall be guided by the provisions of Topic 323, as discussed in the guidance beginning in paragraph 970-323-25-2,~~paragraphs 970-360-25-2 through 25-4 and 970-720-25-3,~~ or by the cost method, as discussed in ~~paragraphs 970-340-25-9 through 25-10,~~the guidance beginning in paragraph 970-323-25-5, as appropriate.

6. Based on comments received, amend paragraph 320-10-65-1, with no link to transition paragraph as follows:

320-10-65-1 The following represents the transition and effective date information related to FSP FAS 115-2 and FAS 124-2, *Recognition and Presentation of Other-Than-Temporary Impairments:*

a. The pending content that links to this paragraph shall be effective for interim and annual reporting periods ending after June 15, 2009, with early adoption permitted for periods ending after March 15, 2009.
b. Earlier adoption of the pending content that links to this paragraph for periods ending before March 15, 2009, is not permitted.
c. An entity shall adopt early the pending content that links to this paragraph if the entity elects to adopt early either of the following:

1. The pending content that links to paragraph ~~820-10-65-1~~820-10-65-4
2. The pending content that links to paragraph 825-10-65-1.

d. If an entity elects to adopt early the pending content that links to this paragraph, it shall adopt the pending content that links to paragraph ~~820-10-65-1.820-10-65-1.~~820-10-65-4.
e. This paragraph does not require disclosures for earlier periods presented for comparative purposes at initial adoption.
f. In periods after initial adoption, this paragraph requires comparative disclosures only for periods ending after initial adoption.
g. The pending content that links to this paragraph shall be applied to existing and new investments held by an entity as of the beginning of the interim period in which that content is adopted (for example, as of April 1, 2009, if an entity adopts that content for periods ending after June 15, 2009).
h. For debt securities held at the beginning of the interim period of adoption for which an other-than-temporary impairment was previously recognized, if an entity does not intend to sell and it is not more likely than not that the entity will be required to sell the security before recovery of its amortized cost basis (after considering the guidance in paragraphs 320-10-35-30 and 320-10-35-33A through 33G), the entity shall recognize the cumulative effect of initially applying the pending content that links to this paragraph as an adjustment to the opening balance of retained earnings with a corresponding adjustment to accumulated other comprehensive income. The cumulative effect on retained earnings shall be calculated by comparing the present value of the cash flows expected to be collected determined in accordance with the methodology in paragraphs 320-10-35-33D through 35-33E with the amortized cost basis of the debt security as of the beginning of the interim period in which the pending content that links to this paragraph is adopted. The cumulative-effect adjustment shall include related tax effects. The discount rate used to calculate the present value of the cash flows expected to be collected shall be the rate in effect before recognizing any other-than-temporary impairments and not a rate that has been adjusted to reflect those impairments.
i. The amortized cost basis of a security for which an other-than-temporary impairment was previously recognized shall be adjusted by the amount of the cumulative-effect adjustment before taxes. The difference between the new amortized cost basis and the cash flows expected to be collected shall be accreted in accordance with existing guidance as interest income (see paragraph 320-10-35-35).
j. In the period of adoption, an entity shall provide the disclosures required by Section 250-10-50 for changes in accounting principles.

7. Based on comments received, amend paragraph 944-20-65-1, with no link to transition paragraph as follows:

a. Except as noted in item (b), the pending content that links to this paragraph shall be effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years.
b. The disclosure requirements in paragraphs 944-40-50-9(a)(5) and 944-40-50-9(b)(1) through (5) are effective for the first period (including interim periods) beginning after May 2008, with all of the following clarifications:
   1. The disclosures shall be provided unless deemed impracticable (as described in paragraph 250-10-45-9).
   2. The disclosures shall be based on an insurance entity's existing accounting policies that may or may not be consistent with the principles of the pending content that links to this paragraph at this earlier effective date.
   3. If the disclosures are deemed impracticable at this earlier effective date, an explanation of why they are impracticable at this time and a description of the insurance entity's existing accounting policy for claim liabilities shall be provided.
c. Except for the disclosures effective for the first period (including interim periods) beginning after ~~issuance of Codification Update 2008-XX~~May2008, earlier application is not permitted.
d. The pending content that links to this paragraph shall be applied to existing and future financial guarantee insurance contracts issued by an insurance entity as of the beginning of the fiscal year in which that pending content is initially applied.
e. An insurance entity shall recognize the cumulative effect of initially applying the pending content that links to this paragraph as an adjustment to the opening balance of retained earnings for that fiscal year.
f. An insurance entity also shall disclose the cumulative effect of the change on retained earnings in the statement of financial position in the first interim period of the fiscal year in which the pending content that links to this paragraph is initially applied.
g. The cumulative-effect adjustment is the difference between the amounts (if any) recognized in the statement of financial position before the initial application of the pending content that links to this paragraph and the amounts recognized in the statement of financial position at the initial application of that pending content, measured using information that is current at that date. Accordingly, discount rates shall reflect the relevant risk-free rate at the date that pending content is initially applied.

h. The pending disclosure requirements that link to this paragraph shall be applied beginning in the first interim period of the fiscal year in which the pending content that links to this paragraph is initially applied with earlier disclosure for information specified in item (b). The pending disclosure requirements that link to this paragraph need not be applied for financial statements for periods presented before initial application of the pending content that links to this paragraph except as stated in item (b).

Second Quarter 20X1

Diluted EPS Computation		
Income available to common stockholders		$4,495,000
Plus: Income impact of assumed conversions		
Preferred stock dividends	$ 5,000 [(a)]	
Effect of assumed conversions		5,000
Income available to common stockholders + assumed conversions		$4,500,000
Weighted-average shares		3,766,667

Convertible preferred stock	433,333 [(c)]	
Dilutive potential common shares		504,762
Adjusted weighted-average shares		4,271,429
Diluted EPS $1.05		

The equation for computing diluted EPS is:

$$\frac{\text{Income available to common stockholders + Effect of assumed conversions}}{\text{Weighted-average shares + Dilutive potential common shares}}$$

(a) 100,000 shares × $0.05

(b) $60 × 500,000 = $30,000,000; $30,000,000 ÷ $70 = 428,571; 500,000 – 428,571 = 71,429 shares OR [($70 – $60) ÷ $70] × 500,000 shares = 71,429 shares

(c) (600,000 shares × 2/3) + (100,000 shares × 1/3)

11. In accordance with FAS 128, paragraph 159, sequence 467.5, amend paragraph 260-10-55-70 with no link to transition as follows:

Excess of total compensation cost over estimated tax deduction	~~$ 615,825~~	$ 615,825
Tax benefit deficiency ($615,825 × .35)	~~$ 215,539~~	$ 215,539
Assumed repurchase of shares:		
Repurchase shares at average market price during the year ($37,503,511 ÷ $44)	~~852,353~~	852,353
Incremental shares (892,500 -- 852,353)	~~40,147~~	40,147
Computation of Diluted EPS for the Year Ended December 31, 20X7:		
Net income	~~$97,385,602~~	$97,385,602
Weighted-average common shares outstanding	~~25,000,000~~	25,000,000
Incremental shares	~~40,147~~	40,147
Total shares outstanding	~~25,040,147~~	25,040,147
Diluted earnings per share	~~$ 3.89~~	$ 3.89

(a) Pre-tax annual share-based compensation cost is $4,022,151 [(821,406 × $14.69) ÷ 3]. After-tax share-based compensation cost included in net income is $2,614,398 ($4,022,151 – $1,407,753). ($4,022,151 × .35) = $1,407,753.

(b) Share options granted at the beginning of the year plus share options outstanding at the end of the year divided by two equals the weighted-average number of share options outstanding in 20X7: [(900,000 + 885,000) ÷ 2] = 892,500. This example assumes that forfeitures occurred ratably throughout 20X7.

(c) 885,000 (options outstanding at December 31, 20X7) – 821,406 (options for which the requisite service is expected to be rendered) = 63,594. 63,594 options × $14.69 (grant-date fair value per option) = $934,196 (total fair value). $934,196 ÷ 3 = $311,399 (annual share-based compensation cost).

(d) 15,000 (forfeited options) × $14.69 (grant-date fair value per option) = $220,350 (total fair value).

(e) (892,500 × $14.69) = $13,110,825.

12. In accordance with EITF Issue 03-6, Discussion, Sequence 111, amend paragraph 260-10-55-74 with no link to transition as follows:

260-10-55-74

{TABLE EDITS: Change column heading from "Preferred" to "Convertible Bonds"}

Net income		$ 65,000
Less dividends paid:		
Class A common	$ 20,000	20,000
Undistributed 20X1 earnings		$ 45,000

Allocation of undistributed earnings:

To convertible bonds:

0.4(8,000) ÷ [0.4(8,000) + 0.6(10,000)] × $45,000 = $15,652

$15,652 ÷ 8,000 shares = $1.96 per share

To common:

0.6(10,000) ÷ [0.4(8,000) + 0.6(10,000)] × $45,000 = $29,348

$29,348 ÷ 10,000 shares = $2.93 per share

Basic earnings per share amounts:
